Hello! For the past year, I have studied and continuing to learn different programming languages. As my interest continued to grow, I made the decision to further my knowledge by attending a 9 week coding bootcamp with Le Wagon. Since then I have continued studying and I'm excited to pursue this path as a career. I enjoy anything that lets me be creative but I also enjoy a problem-solving challenge.

## SKILLS

---

CSS - HTML - Java - Javascript - Python - Ruby on Rails - Node js - React js - Redux  
AJAX - APIs - Bootstrap - Flask - Git & Github - JQuery - SQL - UX/UI - XML - Figma - Adobe CC
